## **Addon Installation:**

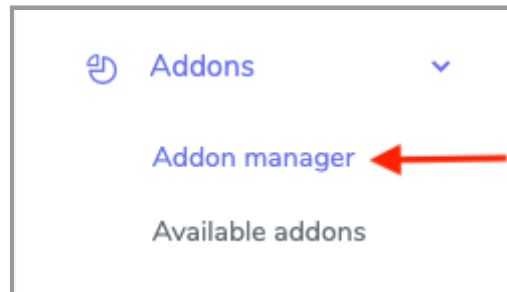

Please follow the below steps to complete the installation process of the Course Analytics Addon.

1. Before starting the installation process, we would suggest you check your application version. It has to be 4.7 or greater than 4.7. For checking the application you can move to the **About** section from the **Settings** menu.

2. If you are running the mentioned version, then you are ready to install this add-on.
3. First download the add-on you want to install on your application from Codecanyon
4. Unzip the downloaded file.
5. You should get Two folders inside. One is for documentation and the other is for the addon file.
6. You do not need to change anything. Like renaming, removing, or something else.

7. Now get back to your application. Login as Admin role. After logging in you will be able to keep following.
8. From the left navigation menu, Go to **Addon Manager** from the **Addon** section.

9. You will find a list of addons you have so far.
10. Click on the “**Add New Addon**” button on the top. You should redirect to an upload addon view.
11. That view will contain a single field called “**Upload Addons File**”. Just upload the “**course-analytics.zip**” file.
12. After that hit the “**Install addon**” button.
13. You should get a success message notification and you can also see your installed addon on the “**Installed Addon**” list below.

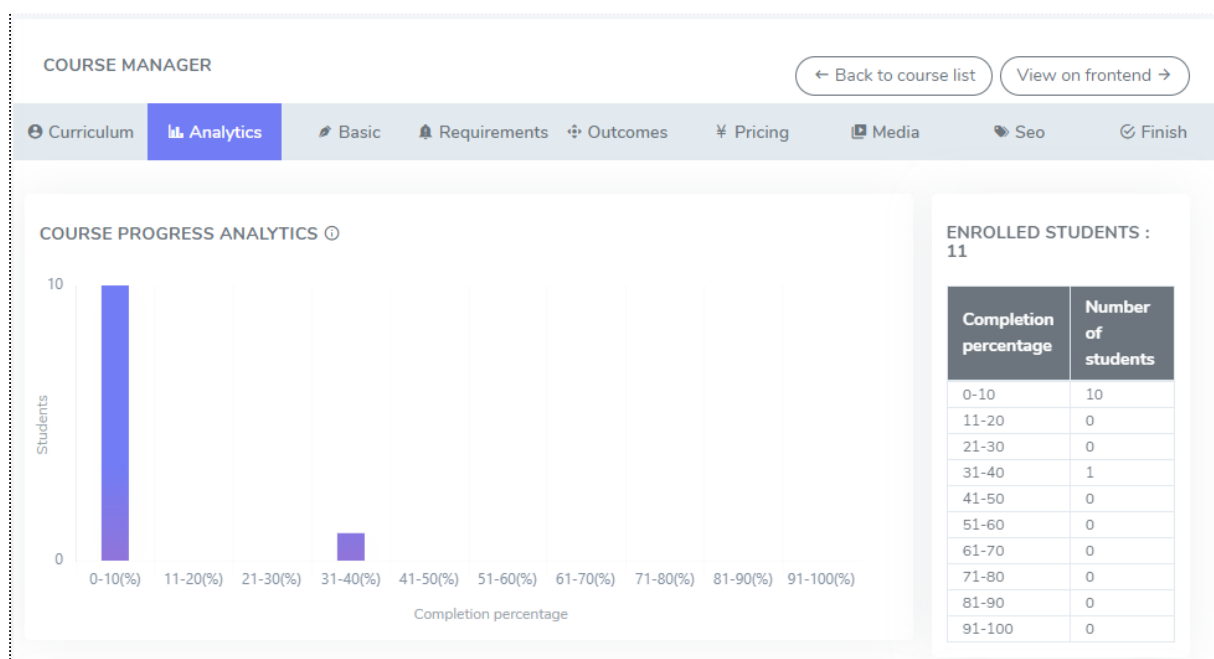

## Addon Usage:

If you've installed the addon successfully, You are welcome to this section. This addon will help you to see student's course progress and the progress of enrollments.

### Course progress

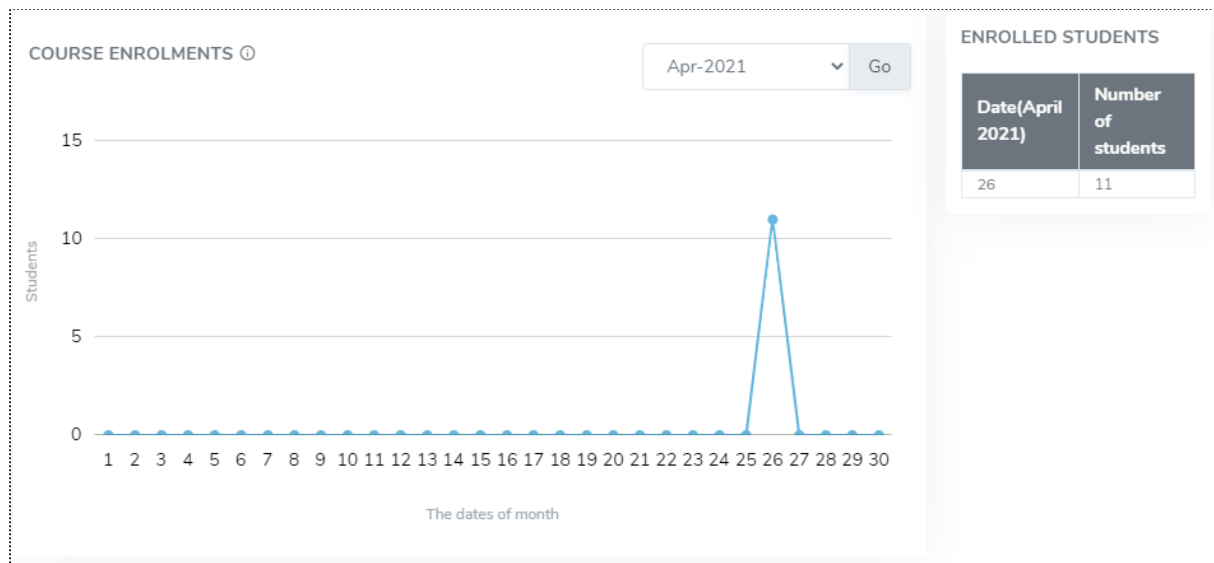

You will see the course analytic chart on the course edit or manage page.

You will be able to see the course progress for all enrolled students here. Which will help you understand the needs of your students. On the left side of the chart, you will see the range of the top number of students, and on the bottom of the chart, you will see the range of percentage. Also, you will able to see the table of the chart on the right side.

## Course Enrolment Report

You can see the student enrolment reports from this chart by filtering. On the left side of the chart, you will see the number of enrolled students, and on the right of the chart, you will see the total enrolled days of the month. Also, you will be able to see the table of the chart on the right side.

## How to see enrolment reports by filtering?

In the chart, you will see a select box for the filter, select a date and click on the "Go" button. You will find all the months from the month of adding your course until the present month in the Select box. These months will increase here as the years.
