Source Code Structure:

We followed standard MVC structure within powerful Php Codeigniter framework to develop Academy.

Structure of Course Forum Addon:

Controllers

- **Course_forum.php** : This is the controller we used for this addon. As the name suggests, it controls all the functions.

Models

- **Course_forum_model.php** : All the functionalities related to database are done here.

SQL

- **updater.php** : If an addon requires modifications on existing database this file comes to play the role.

Views

- **course_forum.php**
- **add_new_question_form.php**
- **show_more_questions.php**
- **question_comments.php**
- **course_forum_scripts.php**

: These are the view files we used for this addon.

Config.json : This is the skeleton of an addon. It contains the core data. It also describes all the actions made during installation. So do not change anything here.
