Source Code Structure:

We followed standard MVC structure within powerful Php Codeigniter framework to develop Course Analytics Addon.

```
▼ course-analytics
  ► assets
  ▼ controllers
    ▼ addons
      Course_analytics.php
  ► helpers
  ▼ models
    ▼ addons
      Course_analytics_model.php
  ► sql
  ▼ views
    ▼ backend
      ▼ admin
        course_analytic_scripts.php
        course_analytics.php
        course_analytics_body.php
        course_enrolment_analytics_body.php
    ▼ user
      course_analytic_scripts.php
      course_analytics.php
      course_analytics_body.php
      course_enrolment_analytics_body.php
  /* config.json
```

Structure of Course Analytics addon:

Controllers

- **Course_analytics.php:** This is the controller we used for this addon. As the name suggests, it controls all the functions.

Models

- **Course_analytics_model.php:** All the functionalities related to the database are done here.

Views

- **course_analytics.php**
- **course_analytics_body.php**
- **course_enrolment_analytis_body.php**
- **course_analytic_scripts.php**

: These are the view files we used for this addon.

Config.json: This is the skeleton of an addon. It contains the core data. It also describes all the actions made during installation. So do not change anything here.
