Course Forum Addon

Academy LMS

## Usage Guide

Addon Installation:

Please follow the below steps to complete the installation process of

Course Forum Addon.

1. Before starting the installation process, we would suggest you to check your application version. It has to be the latest one. For checking the application you can move to **About** section from **Settings** menu.

2. If you are running the latest version, You are now good to go.
3. First download the addon you want to install on your application from Codecanyon
4. Unzip the downloaded file.
5. You should get Two folders inside. One is for documentation and the other is for the addon file.
6. You do not need to change anything. Like renaming, removing or something else.
7. Now get back to your application. Login as Admin role. After logging in you will be able to keep following.
8. From the left navigation menu, Go to **Addon Manager** from **Addon** section.

9. You will find a list of addons you have so far.
10. Click on the "**Add New Addon**" button on the top. You should redirect to an upload addon view.
11. That view will contain a single field called "**Upload Addons File**". Just upload the "**course_forum.zip**" file.
12. After that hit the "**Install Addon**" button.
13. You should get a success message notification and you can also see your installed addon on the "**Installed Addon**" list below.
